

LOCAL LAW NO. 2 of the year 2019

**A LOCAL LAW TO PLACE A MORATORIUM ON
CERTAIN SOLAR ENERGY INSTALLATIONS IN THE TOWN OF WESTMORELAND**

Section 1. TITLE

This local law shall be known as the "Moratorium on Certain Solar Energy Installations in the Town of Westmoreland."

Section II. LEGISLATIVE FINDINGS

The Town Board finds that solar energy can provide an environmentally friendly source of sustainable energy to and for the benefit of the residents of the Town of Westmoreland. The Board also finds that there are safety issues associated with the installation and use of solar energy systems, as well as aesthetic impacts associated with the installation and use of such facilities, and the future decommissioning and removal of such facilities. The Board further finds that the existing provisions under the Town's Zoning Law do not provide adequately for the review and permitting of solar energy system installations in the Town, and that it is necessary for the protection of the health, safety, and general welfare of the residents of the Town to develop and enact additional regulatory provisions under the Town's Zoning Law for the installation and use of solar energy installations. The Board further finds that in order to protect against the negative impacts of such installations on the character of the Town's community and the public safety of the residents thereof, it is necessary to adopt a moratorium on certain solar energy system installations in the Town pending the development and enactment of further regulations with respect to the same.
